

Are your yellow teeth keeping you from smiling more?

In Just Over an Hour, You'll Wonder Why You Didn't Whiten Your Teeth Sooner With Zoom 2 Whitening. Give Me Less Than 20 Minutes of Your Time to Learn How White Teeth Will Change the Way You Feel About Your Looks.

Everyone is now whitening their teeth, but not everyone is doing it in a safe manner in a professional setting to control the best chances for the whitest results!

How many more whitening strips from the drug store will you continue to use before you realize they don't get your teeth white enough? Have you tried swallowing a teaspoon of hydrogen peroxide per night? That's what you'll swallow with most home systems to bleach your teeth. Learn in this free report on Zoom 2 whitening why you no longer have to put up with this any longer.

What is Zoom 2 Whitening?

Dr. Fox is proud to announce that he is offering his patients and their families the newest generation of the world's leading teeth whitening

system! So, this is for the whole family, even if you've never had braces.

Zoom 2 is the fastest, most comfortable and most effective in-office whitening system ever.

Zoom 2 is 33% faster than Zoom 1 and has 65% less teeth sensitivity. In just 45 minutes, your teeth will be dramatically whiter.

Zoom 2 is ideal for anyone looking for a fast result, who doesn't have time to bleach their teeth every night and who's too busy to try other methods.

What is the Youngest Age that One Can Do Zoom 2 Whitening?

Zoom 2 can be used on age 13 or older.

What are the Details of What Happens at My Appointments to do Zoom 2?

We first take impressions of your teeth for the lab to make trays that you will use later for touch-ups.

A second appointment for two hours is made to prepare your teeth and do the Zoom 2 whitening.

During the 2nd appointment, your teeth are cleaned. The gums and lips are covered with a special gauze to help prevent the Zoom 2 gel from irritating them. Then, the gel is applied to the teeth three separate 15 minute intervals. During this time, a special light activates the gel that whitens the teeth.

How Much Whiter Will My Teeth Get With Zoom 2 Whitening?

Zoom 2 whitens an average of 8 shades, so some can be less with minor changes and others more. Dr. Fox has plastic teeth that each have a different color. Photos are taken of your teeth before and after

Zoom 2 is done along with a plastic tooth held up to your teeth that has the color shade that matches your teeth to prove the whitening did occur. It's kind of looking at swatches to pick out the color of carpet, tiles or paint.

Why Do I need Fluoride on my Teeth After Zoom 2?

Trays made from your impressions are given to you to place fluoride gel in them to help decrease any teeth sensitivity than may occur. Zoom 2 causes your enamel of your teeth to become dehydrated.

The fluoride helps to rehydrate the dried out enamel that causes any sensitivity that exists after the Zoom 2 is done. Most patients state the sensitivity, if present, is gone by noon the next day.

After Zoom 2 I Understand that a 3rd Appointment may be needed?

A 3rd appointment is made to see you in 2-3 days to give free extra gel for touch-ups if needed later. We may give this to you at your 2nd appointment instead and is determined by Dr. Fox.

It is recommended to use the touch-up kit in some cases in 1-2 weeks to give a better result. Some patients that have very white teeth are told to wait until the patient feels that they need a touch-up.

Do all Shades or Color of Teeth Work Well with Zoom 2?

Zoom 2 is most effective on teeth that are faded white or yellow teeth. Brown, green, grey or a mix of these colors do see results, but are not as predictable.

Why does Zoom 2 have to be Done Before Any Crowns or Veneers are done?

Zoom 2 will whiten all the teeth and then the family dentist that will do your crown or veneer can match it to the new whiter teeth. Zoom 2 can't whiten a veneer, crown or bonding.

So, if Zoom 2 is done after a crown or veneer is done, the crown or veneer may have to be redone to match the other teeth.

How does Zoom 2 make the Teeth Whiter?

Zoom 2 will actually change the crystals of the enamel of the teeth. Then, when light beams hit the crystals, they reflect a whiter color. It does this more to get a whiter look than just removing dark stains from the teeth.

The Key is feeling comfortable with free Information before you decide!

6 Reasons Why You Must Choose Dr. Fox for Zoom 2 Whitening:

1. Dr. Fox treated himself and knows what it is like to be in braces!
2. **Discover How This New Technology Works. Dr. Fox has a Master's Degree in Braces, was #1 in his dental class, has a world research award in Braces given to him by the American Association of Orthodontists and has just released his new diet book.**
3. He creates enough space between your teeth so extractions of permanent teeth become unnecessary in most cases! No one can guarantee that they will all fit, but Dr. Fox will give you the truth.

4. **Eliminate the need for jaw surgery in many patients who have bulldog bites.**
5. Dr. Fox has separate waiting rooms for children and adults with video games located in both rooms making it a very fun environment.
6. **Dr. Fox and his staff explain procedures that makes adults and children feel very comfortable with many stating, "I wish more medical & dental offices explained things like this to me ... they even showed me what my child's profile and straight smile will look like when it's all finished with their computers."**

Act Now For Your \$125 of FREE BONUS SERVICES!

To allow you to find out for yourself how much money you can save and get the smile you deserve, Dr. Fox has agreed to give a very **SPECIAL OFFER: receive a 10 POINT Healthy Teeth Braces Check-up and photos (worth \$55), and:**
